

Our Learn to Skate Program

General Information

- We have classes for skaters of all ages. See our Learn to Skate Class Details chart for more information.
- Classes are designed to teach skaters fundamentals of skating in a supportive and enjoyable environment and focus on proper skill development to foster a lifelong love of skating.
- Group classes run in six, seven or eight-week sessions.
- During the first two weeks of each session, our coaching staff will evaluate each student and if necessary change their class, to ensure that they're learning at the correct skill level.
- Each skater will also be evaluated in the second to last class of each session, to determine if that session's curriculum has been mastered.
- Skaters may practice on a public session for free during the session they're enrolled in.
- Some levels may take more than one session to complete as the range of difficulty will vary.

What to Wear to Class

- Layer in warm, comfortable clothing that allows for unrestricted movement (jeans are not recommended)
- A helmet (bicycle or ski) is required by all skaters ages 10 and under.
- Warm gloves
- Thin socks or stockings that rise above the skater's ankle.

How to Tie Ice Skates

- Start with properly-fitting skates (not too big, not too small)
- Begin by loosening the laces, put your foot firmly in the skate, then tighten the laces starting from the toe up to the ankle.
- Make laces tightest where the foot and ankle bend.
- Lace around the hooks in a crisscross pattern, using all the hooks.
- Finish with a secure bow (a double knot to finish is recommended).
- If the skates do not feel secure after being completely laced, the laces are probably too loose, and the lacing process should be redone.

Learn To Skate USA Membership

- All Learn to Skate class participants must be current members of LearnToSkateUSA. Register or renew at learntoskateusa.com. Membership runs from 7/1-6/30 in any given year.
